(x2)

Operation Manual
(x1)

Remote Controller
(Optional)

USB Plug
(Optional)

Important Note

- The illuminated hour and minute hands are not app-controlled, cannot change color, and remain lit whenever USB power is connected.
- Please wear the included gloves when handling the clock to avoid fingerprints on the mirrored surface.

GLOWHANDS OVERVIEW

Light Elevates
Time

Front View

Mirrored Acrylic Dial

Sleek, reflective finish that elevates any space.

RGBIC Dial Lighting

Stunning multi-color perimeter lighting with 200+ dynamic modes.

Illuminated Hour & Minute Hands

Cold-white LED hands remain lit whenever USB power is connected.

Rear View

Rear Wall Mount

Built-in hanger for easy and secure wall installation.

AA-Battery Analog Movement

Keeps accurate time (backup for clock movement).

USB Extension Cord Connection

Connects to the included USB power cable.

USB Power Cable & Controller

Inline Controller

Three-button control (Mode / Power / Music).

USB Power Plug

Connect to a USB power adapter (5V/2A recommended).

Clock Connector Head

Connects to the clock's extension cord.

Dual Power System

AA Battery for Timekeeping

A single AA battery keeps the analog clock movement accurate even when the decorative lighting is switched off.

USB Power for Lighting & Smart Functions

USB power operates the RGBIC dial lighting, illuminated hands, and all smart functions (mode switching, music sync, etc.).

Keeps Time Independently

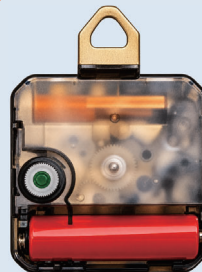

The clock will continue to keep accurate time with AA battery power even when USB power is disconnected or the lights are turned off.

GET UP & RUNNING

Light Elevates
Time

Get Up & Running

1 Insert AA Battery & Set the Time

Insert one AA battery into the clock movement and set the time.

We recommend using your finger to move the minute hand to adjust the time. It must be moved in clockwise rotation only.

2 Mount the Clock on the Wall

Standard screws are included to mount the clock on the wall. Special screws (not included) may be required depending on the wall type.

3 Connect the Cable Correctly

Plug the USB cable's special connector end into the clock's extension cord (from bottom of clock).

Then connect the USB plug to a USB wall adaptor.

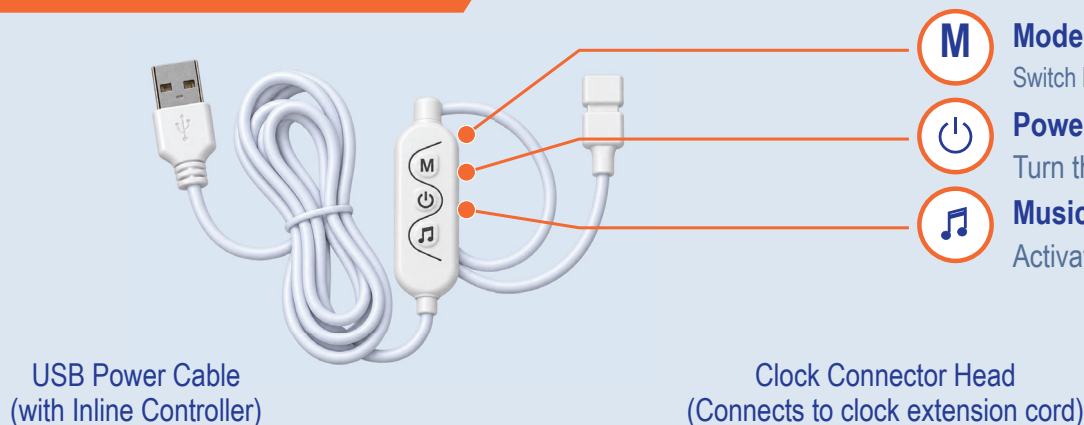

4 Download the App

Scan the QR code here or on the back of the inline controller to download the app and unlock all the smart features.

USB Controller & Cable

USB Power Cable
(with Inline Controller)

Clock Connector Head
(Connects to clock extension cord)

M

Mode Button

Switch between lighting modes.

Power Button

Turn the lights on or off.

Music Button

Activate music sync mode.

APP DOWNLOAD & BLUETOOTH PAIRING

Light Elevates
Time

Use the duoCo StripX App

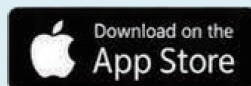

Control the RGBIC dial lighting on your ADVPRO GlowHands with the duoCo StripX app, available for iOS and Android. Adjust colors, brightness and lighting effects to suit your space.

duoCo StripX

Scan to Download

Before You Start

Power On

Make sure the clock is connected to USB power and turned on.

Enable Bluetooth

Turn on Bluetooth on your mobile device.

Allow Location Access

On Android devices, location permission is required to scan for and connect to nearby devices.

Step-by-Step Pairing Guide

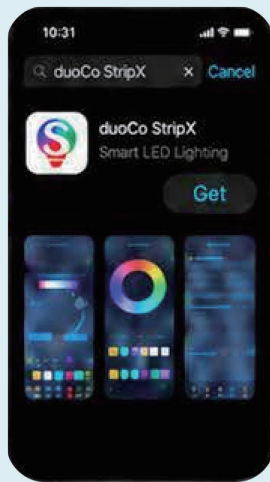

1 Connect Power

Plug the included USB cable into the clock and a power source.

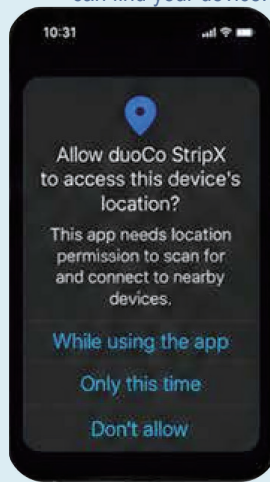

2 Download the App

Search for "duoCo StripX" in the App Store or Google Play, or scan the QR code above.

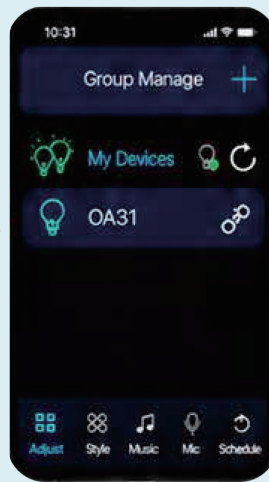

3 Enable Permissions

Turn on Bluetooth and allow location access (if required) so the app can find your device.

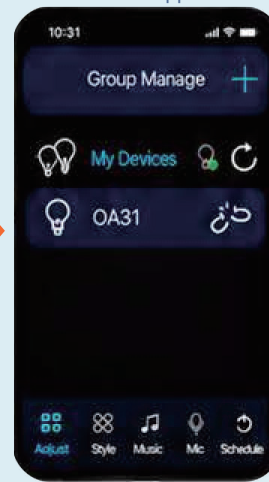

4 Open the App

Launch the duoCo StripX app. Make sure Bluetooth is enabled and you are near the clock.

5 Select & Pair

Tap on the device name to connect. Once paired, you can control the clock with the app.

Notes for Different Devices

iPhone (iOS)

- Bluetooth permission is usually enabled automatically.
- If the device is not found, try restarting Bluetooth or the app.

Android

- Location permission is required to scan for devices.
- Please allow "While using the app" when prompted.
- If the device is still not found, make sure location services are turned on in your phone settings.

Troubleshooting

If You Cannot Find or Connect to the Device

- Make sure the clock is powered on and the LED lights are lit.
- Ensure Bluetooth is enabled on your phone.
- Allow location permission (Android) and try again.
- Move closer to the clock and avoid obstacles.
- Try closing and reopening the app.
- If the issue persists, restart your phone and the clock, then try pairing again.

APP CONTROL

Light Elevates
Time

Important Note

- App controls affect the RGBIC dial lighting only. The illuminated hour and minute hands are not app-controlled, remain white, and cannot be changed.

Color Selection

Choose from millions of colors, adjust saturation and brightness, or select preset colors to create your perfect look.

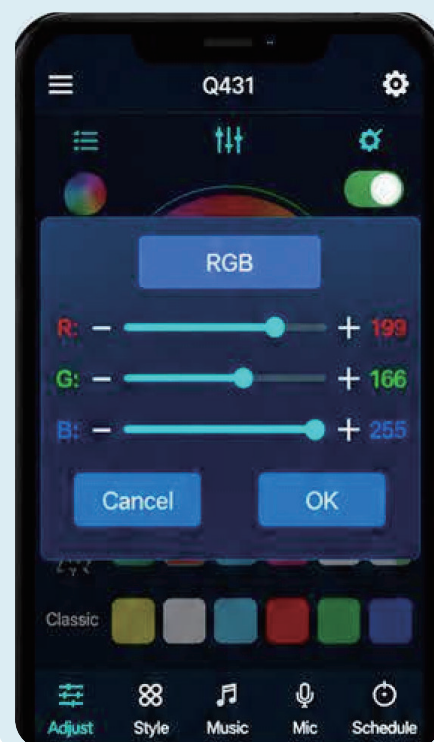

Brightness Control

Easily adjust the brightness of your clock's RGBIC dial lighting to match any environment.

Lighting Control

Turn the light on or off, switch between different lighting modes, and customize the color style.

Inline Controller

Mode Button (M)

Short press to switch lighting modes.

On/Off Button

Short press to turn the lights on or off.

Music Button

Short press to activate music sync mode.

Control Your Way

Use the duoCo StripX app or the inline controller to create the perfect ambiance for any occasion.

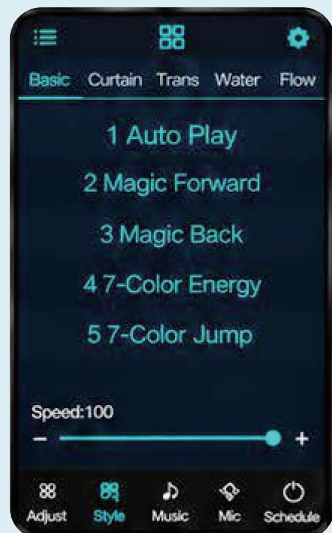

DYNAMIC MODES, MUSIC & TIMER

Light Elevates
Time

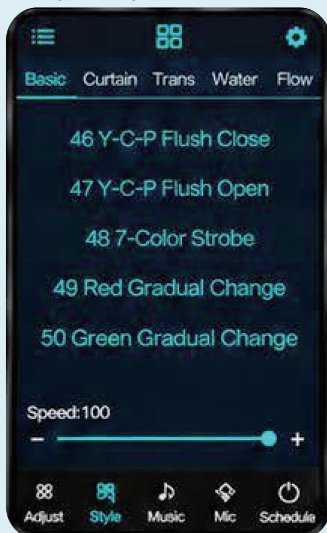

Predefined Dynamic Modes

Choose from 200+ dynamic modes to create amazing lighting effects for your GlowHands. You can adjust the speed and direction of each mode to match your style.

Dynamic Mode List

200+ pre-defined dynamic modes

Speed Adjustment

Adjust the effect speed to your preference

Music / Sound Rhythm Mode

Let the lights move with your favorite music. Choose from built-in music modes, use the phone microphone to detect sound, or play music directly from your device.

Microphone Mode

Lights react to surrounding sounds in real time

Music List & Playback

Play music from your device with dynamic light effects

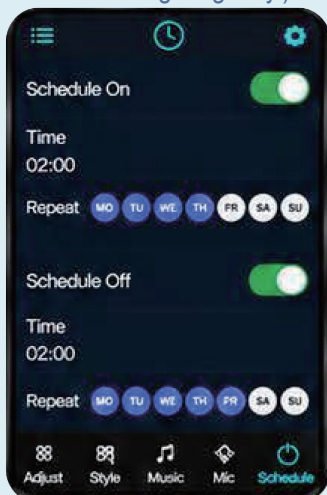

Timer

Set a timer to automatically turn the RGBIC dial lighting on or off. You can schedule multiple timers to fit your daily routine. (Timer settings affect the RGBIC dial lighting only.)

Set On/Off Schedule

Customize time and repeat days

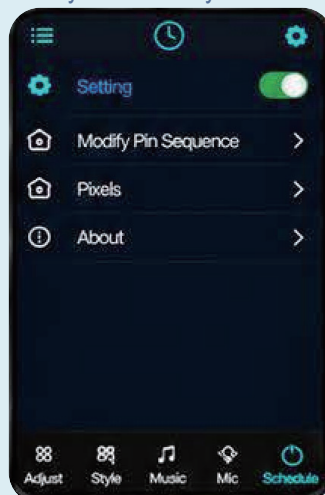

Multiple Timers

Set different on/off times for your convenience

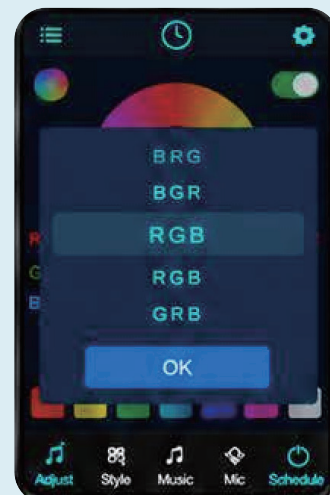

Advanced Settings

Fine-tune your lighting experience with advanced options such as shake control, RGB sequence, pixel count and more to fully customize your GlowHands.

Advanced Options

Access additional settings and customization tools

Color & Pixel Settings

Customize RGB sequence and pixel configuration

Important Note

- Timer settings affect the RGBIC dial lighting only.
- Music and sound rhythm modes work best with clear audio and may vary depending on your device's microphone performance.

CARE, TROUBLESHOOTING & SUPPORT

Light Elevates
Time

Care & Handling

Wear Gloves

Please wear the included gloves when handling the clock to avoid fingerprints on the mirrored surface.

Clean Gently

Use a soft, dry microfiber cloth to clean the surface. Wipe gently to maintain the premium mirrored finish.

Avoid Harsh Chemicals

Do not use alcohol, ammonia, or abrasive cleaners, as they may damage the surface or lighting.

Indoor Use Only

This product is designed for indoor use only. Keep it away from moisture, extreme heat, and direct sunlight.

Keep USB Connection Dry

Ensure the USB cable and controller remain dry and are not exposed to water or other liquids.

Troubleshooting

Lights Do Not Turn On

- Make sure the USB power cable is securely connected.
- Try a different USB power adapter (5V/2A or higher).
- Check that the inline controller is properly connected.

Clock Does Not Keep Time

- Check AA battery polarity and condition.
- Reset the time using the clock movement; app controls affect lighting only.

App Cannot Find Device

- Make sure Bluetooth is enabled on your phone.
- Ensure the clock is powered on and nearby.
- Try turning Bluetooth off and on again, or restart the app.

Remote Control Not Responding

- Check that the battery is installed correctly.
- Try replacing the battery with a new one.
- Make sure you are within range and pointing the remote toward the clock.

Clock Surface Shows Fingerprints

- Use the included gloves when handling the clock.
- Clean gently with a soft, dry microfiber cloth.
- Avoid touching the mirrored surface directly.
